

What parents need to know about

TIKTOK

18+

AGE-INAPPROPRIATE CONTENT

On the iOS store, TikTok is listed as 12+. On the Google Play Store it is rated as 'Parental guidance recommended'. When signing up to the app, it's possible to lie about your age without any form of verification. As children scroll through their feed, most of the videos they're likely to come across are light-hearted or designed to make people laugh. However there have been a number of videos reported for featuring drug and alcohol abuse, self-harm and young teens engaging in sexually suggestive content. More recently, suicide-themed related videos have been widely circulated. Given the deluge of material uploaded to TikTok every day, it's impossible to moderate everything and it can be common to come across explicit and age-inappropriate content on the 'for you' feed when logging into the platform.

INAPPROPRIATE MUSIC

TikTok revolves around creating music videos through lip-syncing and dancing. Inevitably, some of the music featured by users will contain explicit or suggestive lyrics. Given the undeniably young user base, there is a risk that children may look to imitate the explicit language they hear or the suggestive actions they see when viewing others user's videos on the app.

TIKTOK FAME

TikTok is very image focused and there is a notable preoccupation with appearing cool and attractive. Many teenagers now attempt to go viral and become what's known in-app as 'TikTok famous'. TikTok (and its predecessor musical.ly) has spawned its own celebrities – social media stars Loren Gray and Jacob Sartorius have been catapulted to fame through their initial exposure on the app. Obviously, most budding influencers looking to become the next big thing will be disappointed, but this may have the knock-on effect of making them go to more and more drastic lengths to get noticed.

ONLINE PREDATORS

As a social network, TikTok makes it easy to connect with other users. This includes the ability to comment on and react to other user's videos, follow their profile and download their content. Be aware that by default, any user can comment on your child's video if their account is set to public. Most interactions are harmless enough but as an app, TikTok is prone to predators because of the abundance of younger users.

ADDICTIVE NATURE

Social media is designed to be addictive and TikTok is no different. It can be fun and hugely entertaining. However, it is also because of this that it can be hard to put down. In addition to the short, punchy nature of the looping video format, the app's ability to keep you guessing what will come on screen next makes it easy to turn a five-minute visit into 45-minute visit.

IN-APP PURCHASES

Aside from the content, there's also the option to purchase in-app extras called 'TikTok coins'. Prices range from £0.99 for 100 coins to an eye-watering £93.99 for 10,000 coins. TikTok coins are used to purchase different emojis to reward content creators that a user finds funny or entertaining. In the iOS version of the app you can disable the option to buy TikTok coins but this sadly doesn't seem to be a feature in the Android version.
